

Alexander Bird

President, British Society for the Philosophy of Science, Peter Sowerby Professor of Philosophy and Medicine, Department of Philosophy, King's College London.

Mini-Bio: Alexander Bird previously held the chair in Philosophy at the University of Bristol, and was lecturer and then reader at the University of Edinburgh before that. He has also held visiting positions at Dartmouth College, Saint Louis University, Monash University, and All Souls College Oxford. His work is principally in those areas where philosophy of science overlaps with metaphysics and epistemology. He has a particular interest in the philosophy of medicine, especially regarding methodological issues in causal and statistical inference.
